

ABOUT OUR NETWORK

The Nevada Green Business Network offers a **voluntary, statewide green business certification program**. We work with businesses to provide **FREE** assistance and recognize businesses that achieve certification.

INNOVATIVE SOLUTIONS

Our program uses GreenBizTracker, a software solution that makes it easy for businesses to go through the certification process. It offers industry-specific checklists of best practices.

WE ARE HERE FOR YOU

We help businesses identify and implement green practices that make sense for their organization. Businesses receive technical assistance, recommendations on low and no-cost actions, and access to valuable information.

WHAT IS A GREEN BUSINESS?

Green businesses show they care about the environment and community. They implement best practices that protect the environment, lower carbon emissions, and safeguard the health and wellness of employees and customers.

GETTING CERTIFIED IS FREE THREE EASY STEPS

- 1 Register and apply**
Complete a business profile. A checklist is generated based on type of business.
- 2 Get assistance**
A Green Business Advisor will reach out to offer assistance. Businesses take as long as needed to complete a checklist.
- 3 Get recognized**
Certified green businesses complete a Company profile and get listed in the Green Business Directory.

GET RECOGNIZED

We promote our green businesses and connect them to customers across our community.
